Participant Feedback

What an outstanding presentation Andrea! The Making Maths Meaningful session you ran at our school was just inspiring. The teaching strategies and tactics you demonstrated were easily accessible and obviously enthused our teachers. The next day a considerable number immediately tried out some of your ideas. As we all know that there is such a short window of opportunity to put new ideas into practice or it's unlikely that you will. It therefore showed you had a significant impact upon our staff.
Heather

An excellent presenter...clear...motivating...well paced and exceptionally relevant.

Your enthusiasm and passion for effective literacy learning and teaching is infectious.

"Andrea connects with all educators at all levels, from a first year graduate to an experienced Principal." Andrea has created a learning community where all students, teachers and parents are working together towards the same goal. Andrea provides you with exactly what you need, ideas that are transferred directly into your classroom practice. The great part of Andreas work is that it can be used across all areas of the curriculum.
Mark

This was one of the most interesting and valuable PDs I have attended. In addition to the theory, there were so many fantastic ideas for strategies to use with children and staff.

Dear Andrea,
I would like to say a 'big' thank you for your peer coaching this morning. I found it to be very, very beneficial. I do appreciate your expertise and receiving feedback from you. I am keen to implement your suggestions. Thank you again,
Kerrith.

Creating a relaxed and fun environment, Andrea is able to inspire her audience. She is passionate, motivational and entertaining. She customises her presentations to fit all individuals' needs.
Briony

Thank you Andrea for sharing your fountain of knowledge. Everything was practical, inspiring and informative.

Andrea has played a key role in developing our staff's understandings of Mathematics. She contributed to the planning of our annual two-day whole staff conference and led us in a series of workshops. Her activities were well thought out and enabled the teaching staff to make powerful insights into how children learn mathematics. The insights gained from her workshops have enabled us to develop a Scope and Sequence for Prep to Year 6 in the Mathematics dimension of Number.
Andrew

Andrea, thank you for bringing literacy to life. I have come away from this PD with a wealth of new ideas to try and given I have been teaching for many years I find this delightful!

Andrea is a passionate presenter.
